## NOOSAVILLE STATE SCHOOL COMPUTER USE AGREEMENT

Parent/ Guardian to read and complete, Student over page:

I understand that the Internet can provide students with valuable learning experiences. I also understand that it gives access to information from computers around the world and that some of that information can be undesirable. Although the filtering system in use at this school does have certain safeguards in place, the school cannot always control what is being accessed.

1. I accept that while teachers will exercise their duty of care, protection against exposure to harmful information must depend finally upon responsible use by students.
